

Civil Project Engineer (Kirkland and Wenatchee, WA)

CPH is looking for a motivated and detail-oriented **Civil Project Engineer**. The successful candidate will advance their design skills while overseeing deliverables and mentoring younger design staff on a variety of land development and municipal infrastructure projects.

YOUR ROLE

- Perform design, technical analysis, and engineering calculations and prepare plans related to grading, drainage, utility systems, and other site improvements
- Provide direction to design engineers, drafting and administrative staff, and subconsultants on project tasks, deliverables, and deadlines
- Prepare technical reports, correspondence, and other communications for clients and regulatory agencies
- Meet and communicate with jurisdictions to understand and identify regulatory requirements and design standards
- Prepare/manage completion of land use entitlement and permitting documents including exhibits, applications, and narratives
- Assist with marketing and business development including preparation of scopes of work and fees
- Communicate, coordinate, and maintain relationships with clients, subconsultants, and agency partners

WHAT YOU BRING

- 5+ years of professional experience as a civil engineer
- BSCE and professional civil engineering registration (PE) in Washington, or the ability to obtain Washington state PE within six months of hire
- Confidence and experience in designing civil site and infrastructure improvements including roadway, grading, storm drainage, and water/sanitary sewer facilities
- Proficient with AutoCAD Civil 3D
- Hydrologic and hydraulic modeling experience including WWHM, MGS Flood, HEC-HMS, TR-55/NRCS based software, HEC-RAS, SWMM, or others
- Strong written and oral communication skills and proficient in use of Microsoft Office software
- Focus on clarity, accuracy, and completeness of work product
- Local agency design and permitting experience preferred

COMPENSATION (FULL-TIME)

- Competitive hourly pay
- Paid overtime
- Paid personal time off and holidays
- Performance-based bonus program
- Medical and dental benefits paid at 100% for employee, plus a portion of family
- Managed retirement account with employer matching contributions

WHY CPH?

Founded in 2005, CPH offers an inclusive work environment with a focus on providing a higher level of service and design to our clients and the communities we serve. We accomplish this by empowering individuals with the latest tools and technology, access to and direct mentorship by senior leaders who are well respected in the industry, and the support of a collaborative multidisciplinary team. The **Civil Project Engineer** is a full-time position for an individual who desires to improve their technical skills, interact directly with clients and outside consultants, produce exceptional work, and contribute positively to an established team of professionals. CPH equips all employees with the technology necessary to successfully work remotely—for a healthy team now and to provide flexibility and aid in finding a work/life balance in the future.

CPH Consultants is an equal opportunity employer.
